## SUMMARY OF QUALIFICATIONS

Hi! Simona here. I'm a former nurse turned **front end developer**, meaning I went from triaging patient concerns to problem solving user needs. Why? My technical aptitude was limited with nursing, but I still cared deeply about helping people overcome their challenges (while getting my hands dirty).

Enter the world of front end development, where I've honed numerous key technical skills:

- JavaScript
- Vue.js
- AngularJS
- jQuery & Bootstrap

- Git/GitHub/Bitbucket
- CSS/SASS/LESS/BEM
- RWD
- Firebase Authentication

- HTML
- Sketch
- Gulp/Webpack
- Jira/Scrum

## PROFESSIONAL EXPERIENCE

### Front End Developer | Grid, LLC                                       Oct 2017–Present

Build & improve responsive layouts using SASS/LESS and BEM methodologies, ensuring cross-browser consistency. Work autonomously & collaborate with an agile team to make concepts a reality.

*Transition Fiat Chrysler Automobiles' Service Library from desktop to mobile (details here):*
- Ensure 10K+ employees have a consistent user experience on mobile as on desktop
- Maintain awareness of lesser screen real estate by prioritizing & displaying essential info
- Use JavaScript and jQuery to ensure layout changes align with app's dynamic nature
- Perform rigorous testing across phone types and browsers to maximize compatibility

### Registered Nurse | Henry Ford Macomb Hospital                    Jan 2016–Sept 2016

**Other projects:** *Hiring Remotely*, a responsive Vue web app to find remote jobs (search & filter).

*Develop front end interface for Movie Finder (details here):*
- Develop custom, interactive interface enabling users to browse database of movies & TV shows
- Create log-in portal for users to save their selections on their "To Watch" list (Firebase Auth)

## EDUCATION & PROFESSIONAL DEVELOPMENT

### JavaScript Developer Bootcamp—Grand Circus
*Detroit, Michigan | Oct 2016–Dec 2016*

Experience a structured approach to self-learning I had already started months prior, in addition to mentoring & support, JavaScript fundamentals, informed testing, and peer learning opportunities.

### Associate Degree in Applied Science—Nursing
*Macomb Community College | 2015*
